

For over 30 years I have consistently committed to serving our community and demonstrated my genuine will to make Kalgoorlie-Boulder a better place to live.

From humble beginnings as the rates clerk at the City of Kalgoorlie-Boulder in the 1990s I have been an advocate for supporting others to overcome adversity, which led to my current career in health care.

Being the CEO of a community based not for profit for over 11 years, I am a proven leader delivering courageous guidance to deliver ever-expanding programs for the wellbeing of our community.

I have an exceptional ability to be the connector between local and state government, which has positioned us well and at the centre of many opportunities for funding.

Outside of my professional role, I am a local business owner, and fulfill many responsibilities on a state level as the Deputy Chair of Ministerial Advisory Council for Carers, and on local committees for over 5 years.

I believe that a local government should be open and accountable in the way it conducts its' business. The people that make up our community should have every opportunity to participate in the decision making, it is essential to build trust in your civic leaders.

I am eager to promote the principles and aims of the new local government legislation; to ensure that CKB gets a fair go. Kalgoorlie-Boulder is a thriving community that contributes millions of dollars to the economy and it's time to give back to the people.

My pledge is to be an open and accountable leader, and the buck stops with me.
